Professional Summary
Experienced software engineer with a strong background in Java and expertise in transitioning monolithic architectures to microservices. Skilled in translating requirements into technical solutions with significant experience in maintaining and debugging applications. Collaborative team player experienced in working with functional analysts, product designers, and frontend teams to ensure seamless integration of backend and frontend components.

Work Experience
Software Developer
ZorgDomein
Sep 2023 - Present

Developed and maintained the Transfer healthcare backend application, enhancing patient care using Scala, Akka HTTP, Kafka with Protobuf, Kubernetes, and a hexagonal architecture. Implemented the CQRS pattern to separate read and write operations for improved performance and scalability. Collaborated closely with functional analysts, product designers, and frontend teams to ensure seamless integration of backend and frontend components, participating in design discussions, conducting code reviews, and coordinating deployment using GitLab. Modify the pipelines by updating the Terraform files.
Stack: Scala, Akka HTTP, Kafka + Protobuf, Kubernetes, Hexagonal Architecture, CQRS, GitLab, ArgoCD, HELM, PostgreSQL

Technical Team Lead / Full Stack Developer
HCL Technologies
Jan 2022 - Apr 2023

Designed, implemented, and maintained the ROA web application for insurance. Leveraged Functional Programming concepts to enhance code quality and maintainability and coordinating deployment using Azure and modify pipelines through the Yaml files.
Stack: Java 17, Spring MVC, Spring Boot, Hibernate, SonarQube, Azure, Angular, RestAssured, Oracle Database, Git

Technical Team Lead / Full Stack Developer
Dotin
Aug 2013 - Oct 2021

Developed and maintained core banking credit web application, converting user requirements into technical solutions using Java 8 and spring framework, and coordinating deployment using Jenkins.
Stack: Java, JPA, Spring DI, Jenkins, JUnit, JSP/JSTL, Oracle, Tomcat, Git

Senior Software Engineer
NCG
Aug 2011 - Aug 2013

Developed and maintained ERP web applications, translating user requirements into technical solutions using the Java 1.5 and spring framework and Oracle database, and training junior team members.
Stack: Java, Spring DI, SQL, PL/SQL, JSP, DWR, Oracle, JavaScript, SVN, GLassfish

C# .Net Developer
Telmar
Dec 2010 - Apr 2011

Implemented and maintained features for ERP and MIS systems using C# and ASP.NET.
Stack: C#, ASP.NET, MSSQL, NUnit, Visual Studio

Skills
Languages & Frameworks: Java 17, Spring Boot, C#, ASP.NET, Scala
Architectures & Methodologies: Microservices, Agile, TDD, Hexagonal Architecture, CQRS
Databases: Oracle Database, PostgreSQL, PL/SQL, MySQL, MSSQL
Tools & Platforms: GitLab, SonarQube, Jenkins, Tomcat, Docker, Azure, AWS, Kubernetes, ArgoCD, HELM
Web Technologies: Angular, JSP/JSTL, HTML, CSS, JavaScript
Other: RDBMS, Git, CI/CD, Linux, UML, OOP, Maven, Kafka, Protobuf

Personal Projects
ViraCam
Jun 2018 - Sep 2018

Developed a camera webshop application using Java 1.8, Spring Boot, MySQL, Ionic, and Angular.
Accounting
Jan 2006 - May 2007

Developed an accounting system using .NET technologies.

Education
Bachelor of Information Technology
University of Applied Science and Technology
2004 - 2008

Languages
English: Full Professional Proficiency
Persian: Native or Bilingual Proficiency
